ADDING A SPLASH OF COLOUR

- The ColourMatch service enables us to match our Tigris® Plus, Omega and Premier Cylinders with any desired hardware finish. It also extends into our eTigris® range where we can provide a ColourMatch service to our i-LOCKS to ensure consistency across both mechanical and electronic locking solutions.
- Our ColourMatch finishes are carefully applied either by, powder coating, electrophoretic lacquering, electroplating and metal polishing or linishing to guarantee an extremely high level finished product making the cylinder more robust, resilient and retardant to key damage.
- If the desired finish does not fall into the Tigris® standard finish range then we will ColourMatch. All we require is a sample of the finish we are matching to. Lead times on items not in stock will be 4 weeks from stock availability.

STANDARD TIGRIS® FINISHES

FINISH	REF	TIGRIS® CODE
Satin Nickel Plate	SNP	02
Polished Chrome	PC	11
Polished Brass	PB	20
Satin Brass	SB	04
